

TRAINING LETTER

Dear Pratik ,

We welcome you to the Pregrad mentorship program! We are excited to have you on board and we are confident that you will learn a lot during your time with us.

Your training will start by first week of February and will run for the next 3 months. During this time, you will be learning about the Full Stack Development (MERN) domain and you will be given two live industrial projects, one minor and one major. You will also be working with mentors from Hotstar, TCS, Snapdeal, and many other top companies.

We believe that this program will give you the skills and experience you need to succeed in your career. However, there are a few rules that you need to follow in order to make the most of this opportunity.

- You must attend all classes and workshops.
- You must complete all assignments and projects on time.
- You must be respectful of your mentors and classmates.
- You must not share any confidential information with anyone outside of the program.
- You must not quit the program unless it is absolutely necessary.

We understand that this is a lot of information to take in, but we are here to support you every step of the way. If you have any questions or concerns, please do not hesitate to reach out to us.

We are confident that you will be successful in this program and we look forward to seeing what you accomplish in the future.

Sincerely,
Team Pregrad
